

SYED ALI NOVFAL

Full Stack Developer

Chennai, India | +91 8465833508 | syed.vskp39@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience across the React/Next.js frontend and Node.js backend ecosystem. Shipped live, production frontend builds for international e-commerce and brand clients using React.js, Tailwind CSS, and GSAP, and currently build backend services and database architecture for an internal HR management platform using Node.js, Express.js, Prisma, and PostgreSQL. Comfortable owning features end to end, from schema design to polished UI delivery.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, GSAP

Backend & Databases: Node.js, Express.js, SQL, PostgreSQL, Prisma ORM, Supabase

Tools & Practices: Git, GitHub, RESTful API Design, Authentication & Authorization

PROFESSIONAL EXPERIENCE

Backend Developer (prev. Frontend Developer) — Bytes and Bulls, Chennai

Feb 2026 – Present

- Currently building backend services for LITE SUITE, an HR and admin management dashboard, using Node.js, Express.js, Prisma, and PostgreSQL.
- Designed database schemas and RESTful APIs to support employee check-in/check-out, leave applications, HR document verification, and file uploads.
- Previously worked as a Frontend Developer, building production interfaces for two live client websites using React.js, Tailwind CSS, and GSAP.

Software Developer — Clanga Technologies, Chennai

Mar 2024 – Jul 2025

- Designed and developed RESTful APIs and relational database schemas using Node.js, PostgreSQL, and Prisma ORM for multiple client projects.
- Integrated Supabase as a backend service to handle real-time data synchronization and user authentication, reducing custom backend overhead.
- Built and maintained admin dashboard interfaces using Next.js and Tailwind CSS for internal data and user management.

KEY PROJECTS

LITE SUITE — HR & Admin Management Dashboard

Backend Developer | Node.js, Express.js, Prisma, PostgreSQL

- Building backend APIs and database architecture for an internal dashboard used by admins, managers, and employees to handle check-in/check-out, leave applications, HR document verification, and file uploads.
- Designing relational schemas in PostgreSQL via Prisma ORM to manage employee records, leave workflows, and document approval states.

Sabriya Solutions — E-commerce Platform (Dubai, UAE)

Frontend Developer | React.js, Tailwind CSS, GSAP | Live: sabriyasolutions.ae

- Built responsive, animated storefront interfaces for a live UAE-based e-commerce client using React.js and Tailwind CSS.
- Implemented GSAP-powered animations and transitions to enhance the shopping experience and brand presentation.

DMC&B — Luxury Chandelier Brand Website (Italy)

Frontend Developer | React.js, Tailwind CSS, GSAP | Live: dmc-b.com

- Developed a polished, animation-rich marketing website for a luxury chandelier manufacturing brand, now live in production.
- Used GSAP to craft scroll-based and interactive animations that reflect the brand's premium positioning.

Foodie — Restaurant Discovery Mobile App

Backend Developer | Next.js, Prisma, PostgreSQL, Supabase

- Built a platform that aggregates genuine restaurant reviews to help users discover signature dishes at nearby restaurants.

- Designed and implemented RESTful APIs and database schemas using PostgreSQL and Prisma to manage menus, reviews, and user data.

Gold Scheme Management System

Full-Stack Developer | Next.js, React.js, Tailwind CSS, Supabase, Prisma

- Developed a full-stack admin panel to create and manage gold investment schemes, including customer enrollment and scheme tracking.
- Implemented filtered views and customer purchase order tracking for better reporting and visibility.

EDUCATION

B.E., Electronics and Communication Engineering

2023

Aalim Muhamed Salegh College of Engineering • CGPA: 7.8
